

## GRADUATION PROJECT RESEARCH TOPIC PROPOSAL

Name: Cabriela Rodriguez English Teacher/Block: Period 3<sup>rd</sup>  
 (print)

### RESEARCH TOPIC INFORMATION

Graduation Project Question (big idea):

Is there enough funding aimed at Endometrial (Uterine) Cancer research?

I will need to answer these questions to determine the answer to my GP Question (small ideas):

How much money is spent on research? What kind of breakthroughs will there be with more funding?

My rationale for choosing this topic:

Cancer is something that affects everyone, I have always had an interest in researching cancer more

This topic will be a learning stretch for me because:

I interviewed a person who does research.

### PRODUCT INFORMATION

Detailed description of potential Product

(location, expenses, materials needed, community involvement, reason for choosing this product):

volunteer at an oncology ward; fundraiser. I've always wanted to volunteer at a hospital, so I would get to meet the people who are affected by this cancer. If it is lacking in funds, why not raise some?

PARENT STATEMENT

Parent/Guardian: Please describe why you think the Research Topic your son or daughter has chosen is appropriate for him or her. What does he or she already know about the topic? How will this research build on or create new knowledge for your child?

Multiple horizontal lines for writing the parent/guardian response.
